

NEXT GENERATION MONITORING

With you every step of the way.

INCOMMAND'S INTERACTIVE REMOTE MONITORING SERVICE IS THE IDEAL WAY TO ENSURE THE SAFETY AND SECURITY OF YOUR PROPERTY, WHILE AT THE SAME TIME PROVIDING YOU A COST EFFECTIVE ALTERNATIVE TO ON-SITE MONITORING SOLUTIONS.

ALWAYS WATCHING. ALWAYS PROTECTING.

InCommand, a Chesley Brown Company launched in 2006, is leading the industry in innovative and cost effective security solutions. We utilize customized technology and highly trained security professionals to interactively monitor and secure our clients' property.

Our CHES5 platform is a revolutionary remote monitoring system that allows InCommand officers the ability to interact with security events as they occur. Rather than reviewing surveillance footage after a loss, our video analytics automatically initiate on-site alerts when suspicious activity is detected.

MISSION STATEMENT

To provide the most advanced and cost efficient interactive remote monitoring security service in the world.

CORE STRENGTHS

- Cost effective replacement for on-site security officers
- Highly secured interconnected Command Centers stationed in strategic, undisclosed locations around the United States
- Security officers can escort and communicate with your staff via interactive remote monitoring
- Video archives stored in undisclosed locations
- Professional forensic video services make your surveillance more robust and useful

EXCLUSIVE CHES5 PLATFORM
